

Program for the conference - New Medical Products and Devices  
29 March 2017, Taastrup, Denmark

8.30-9.00	Registration and coffee
9.00-	Welcome
9.05	Jens Gundersen, entrepreneur, founder and former CEO for Fertilitich; <b>"From idea to 1/4 million babies"</b> .
9.45	Morten Foss, senior scientist at iNano, Aarhus University; <b>"Steering Cell and Tissue Response by Surface Modifications"</b> .
10.15	Coffee and poster session
10.45	Andreas Stavropoulos, professor at the dept. of Periodontology at Malmø University; <b>"Peri-implantitis: what is it, how much is it, and is it a problem?"</b>
11.10	Kristian Rechendorff, R&D engineer at Danish Technological Institute; <b>"Tailoring surface properties of medical devices using sputter deposition"</b> .
11.35	Guggi Kofod, CEO at Inmold A/S; <b>"Accessible hologram moulding technology for safe, ink-free decorations in medical devices"</b> .
12.00	Lunch, network and poster session
13.30	Jan Lorenzen, senior project manager at Biotech, Life Science at the Danish Technological Institute; <b>"Biofilm formation - a challenge for many devices"</b> .
13.55	Yijuan Xu, specialist at Biotech, Life Science at Danish Technological Institute; <b>"Antibiofilm material testing – examples and applications"</b> .
14.20	Claus Moser, medical doctor at Department for Clinical Microbiology, Rigshospitalet; <b>"Novel therapeutic regimens for chronic biofilm disease"</b> .
14.45	Coffee
15.15	Nicole Ciacotich, industrial PhD student employed at Elplatek A/S and DTU Bioengineering; <b>"Development of electrochemically deposited surfaces capable of killing bacteria"</b> .
15.40	Simon Ravnbak, Director Front End Innovation, Coloplast; <b>"Innovation at Coloplast"</b> .
16.10	Annette Rye Larsen, project manager for MedTech Innovation; <b>"MedTech innovation: A tool for innovation projects and matchmaking"</b> .
16.30	Summary and end of conference.

This conference on new medical products and devices is open for companies, specialists, medical doctors, researchers and other people interested in the field.

We encourage people to bring relevant posters, showcases, products and devices, which can be displayed during the poster session (please mention that when you fill in the registration form).

**Price: It's free to participate in the event and includes food and drinks. However, be aware of non-show fee.**

**Register for the conference here:**  
[www.conferencemanager.dk/NMPAD](http://www.conferencemanager.dk/NMPAD)

Please state the number and names of participants, and the name of the institute they come from. Let us know if you will be bringing a poster or would like to display your products and devices on a table.

The **deadline for registration** is March 19th 2017.

The number of participants is limited to 150.

**Place:**  
Danish Technological Institute  
Conference Hall, Building 1  
Gregersensvej 1  
DK-2630 Taastrup
