# An insight towards the work of Eurovent

Danish Technical Institute Conference: Refrigeration in  
the supermarket sector

# Speaker

## Mr Francesco Scuderi

Deputy Secretary General

**Eurovent Association**  
Brussels, Belgium

[www.eurovent.eu](http://www.eurovent.eu)

**CEN/TC44/WG6 Convenor**  
**ISO/TC86/SC7/WG2 Convenor**

# Roadmap

1. **Who are we?**
2. Eurovent Product Groups and activities
3. How does Eurovent support the industry internationally?
4. Eurovent Recommendation on air curtain units and their application in cold rooms
5. Eurovent Certita Certification and Eurovent Market Intelligence
6. Eurovent Certitia Certification program for Remote Display Cabinets
7. Q&A

- Eurovent is Europe's Industry Association for **Indoor Climate, Process Cooling, and Food Cold Chain Technologies** – thinking beyond 'HVAC&R'
- Members from 20+ countries in Europe, the Middle East and Africa (EMEA)
- Strong network of EMEA's leading, national industry associations and their more than 1,000 'Affiliated Manufacturers'
- Corresponding Members in countries without national association

# Our Members and their ‘Affiliated Manufacturers’

Our Members are leading national associations from the EMEA region...

And the more than 1.000 manufacturers within their networks (known as ‘Affiliated Manufacturers’ within Eurovent)

# In a nutshell, we represent...

- **1.000+ companies throughout the EMEA region**
  - The majority small and medium-sized manufacturers
- **Which employ around 150.000 people**
  - Highly skilled labour that drives innovation, energy efficiency and reduces CO<sub>2</sub> footprints across the globe
- **And generate a combined annual turnover of EUR 30bn+**
  - Significant contributor to national public accounts

# Democratic decision-making

- Structure as an ‘umbrella association’ ensures broad and truly credible representation of our industry vis-à-vis policy makers
- Truly democratic and rational decision-making procedures
- An equal representation of SMEs and multinationals with voting rights independent from the amount of membership contributions or company sizes

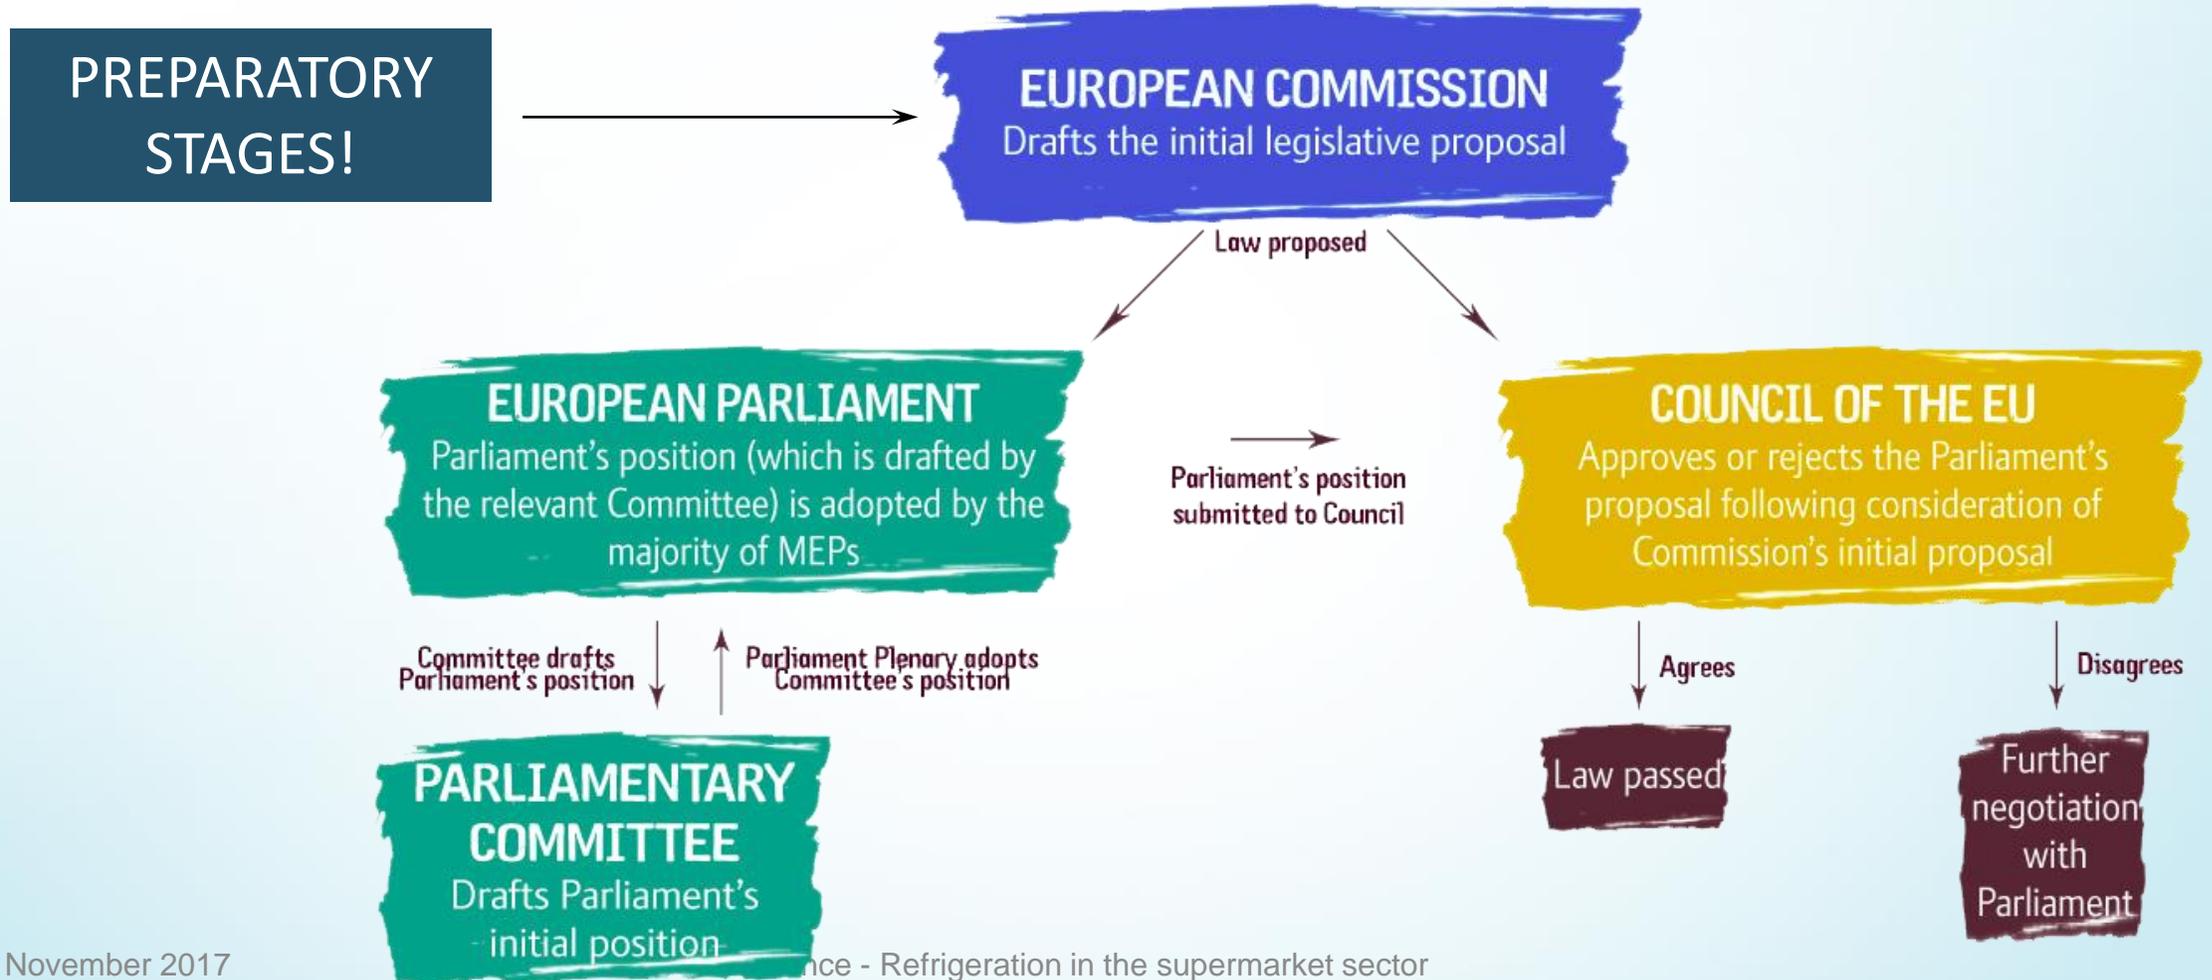

LEVEL  
PLAYING  
FIELD

# Eurovent and the European Union

**Eurovent is a ‘recognised stakeholder’ at EU level and contributes to EU decision-making by:**

- Defining common positions within Eurovent
- Communicating them with national and EU levels
  - Depending on the particular process
  - Towards European Commission, Parliament and the Council
- Communication, advocacy and learning enhanced through large network of national associations
- Monitoring and checking of national positions by Eurovent at EU level

# EU decision-making process

# Policies area

- Ecodesign Directive and implementing measures
- Energy Labelling framework Regulation and implementing measures
- Energy Performance of Building Directive
- Indoor air quality
- Fluorinated Gases

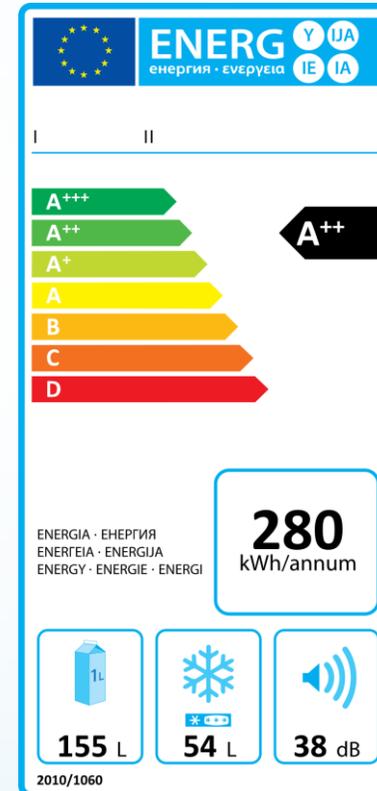

# Ecodesign Directive/Regulations

- Provides consistent EU-wide rules for improving the environmental performance of products
- **Sets out minimum mandatory requirements for the energy efficiency and ecological performance of these products**
- Helps eliminate least performing products from the market, significantly contributing to the EU's 2030 Framework
- Supports industrial competitiveness and innovation
- Ecodesign Directive is implemented through product-specific Regulations (**Energy-related Products**)

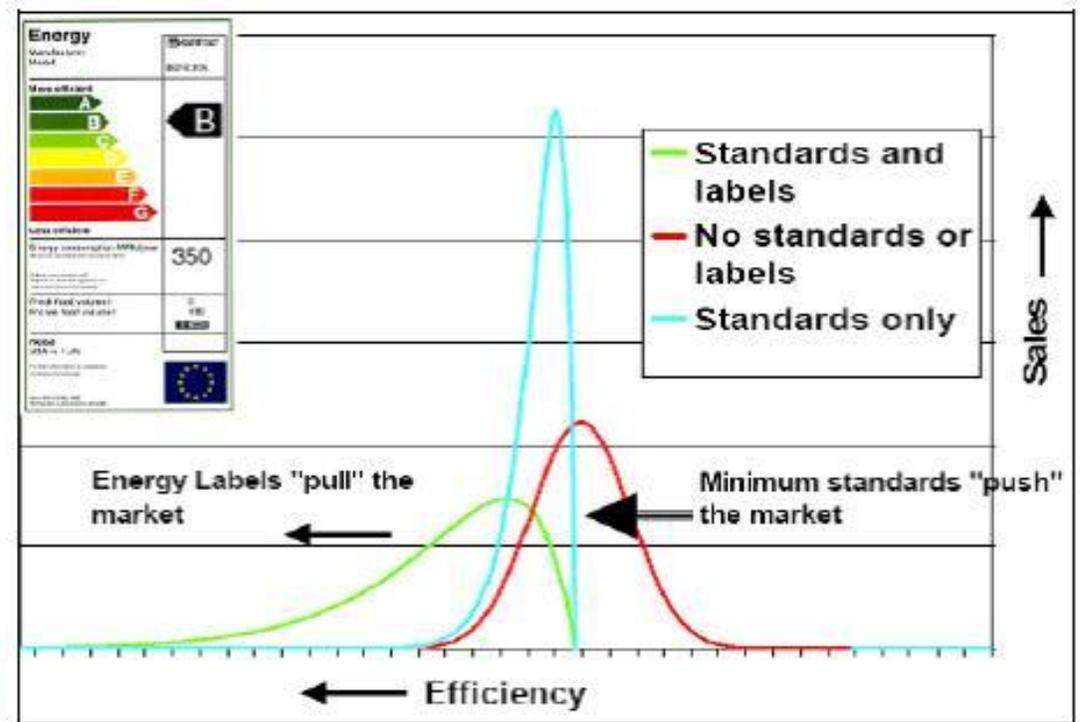

# Energy Labelling Regulation

- **Complements those Ecodesign requirements with mandatory labelling requirements**
- Applies largely to B2C applications (e.g. room air conditioners) and not B2B (e.g. chillers)
- A-G energy labelling scale (no more A+++, ...)
- Rescaled labels will have empty top classes (A and B)
- Process for rescaling the existing labels
- Introduction of a European product database

# Ecodesign and Labelling

- Ecodesign Directive **'pushes'** the market away from the worst performing products
- Energy Label **'pulls'** the market towards more efficient products by better informing consumers

# Energy Performance of Buildings Directive (EPBD) (Revision ongoing)

## STATUS QUO

- Buildings responsible for 40% of energy consumption and 36% of CO<sub>2</sub> emissions in the EU
- **EU has set a target for all new buildings to be nearly zero-energy by 2020**
  - As of 2018 for public buildings
- **Minimum energy performance for renovations**
- Energy performance certificates provide information on the energy efficiency of buildings and recommended improvements
- Inspection heating and air conditioning systems

# Indoor Air Quality Priorities for buildings

- **The first priority is providing a healthy environment for citizens**
- Health costs, specially for older generation, are spiralling
- Energy related issues should consider this
- Consequences
  - Clean energy production
  - Limit energy requirements
  - Different approaches for new and existing buildings

**YOUR AIR FILTER MAKES THE DIFFERENCE**

**IAQmatters**  
*Yes to a better Indoor Air Quality*

Air filters are essential in ensuring a good indoor air quality, which evidently increases productivity levels, reduces health risks, and provides for a good level of comfort. Do you know if the air filter in your HVAC system does what it is supposed to do?

**THINK AHEAD, SHARE THIS MESSAGE. TELL YOUR BUILDING OWNER AND HVAC SUPPLIER THAT #IAQmatters TO YOU.**

#IAQmatters is joint initiative of heating, ventilation and air conditioning (HVAC) manufacturers in Europe and the Middle East, which provide solutions to ensure a healthy indoor climate.

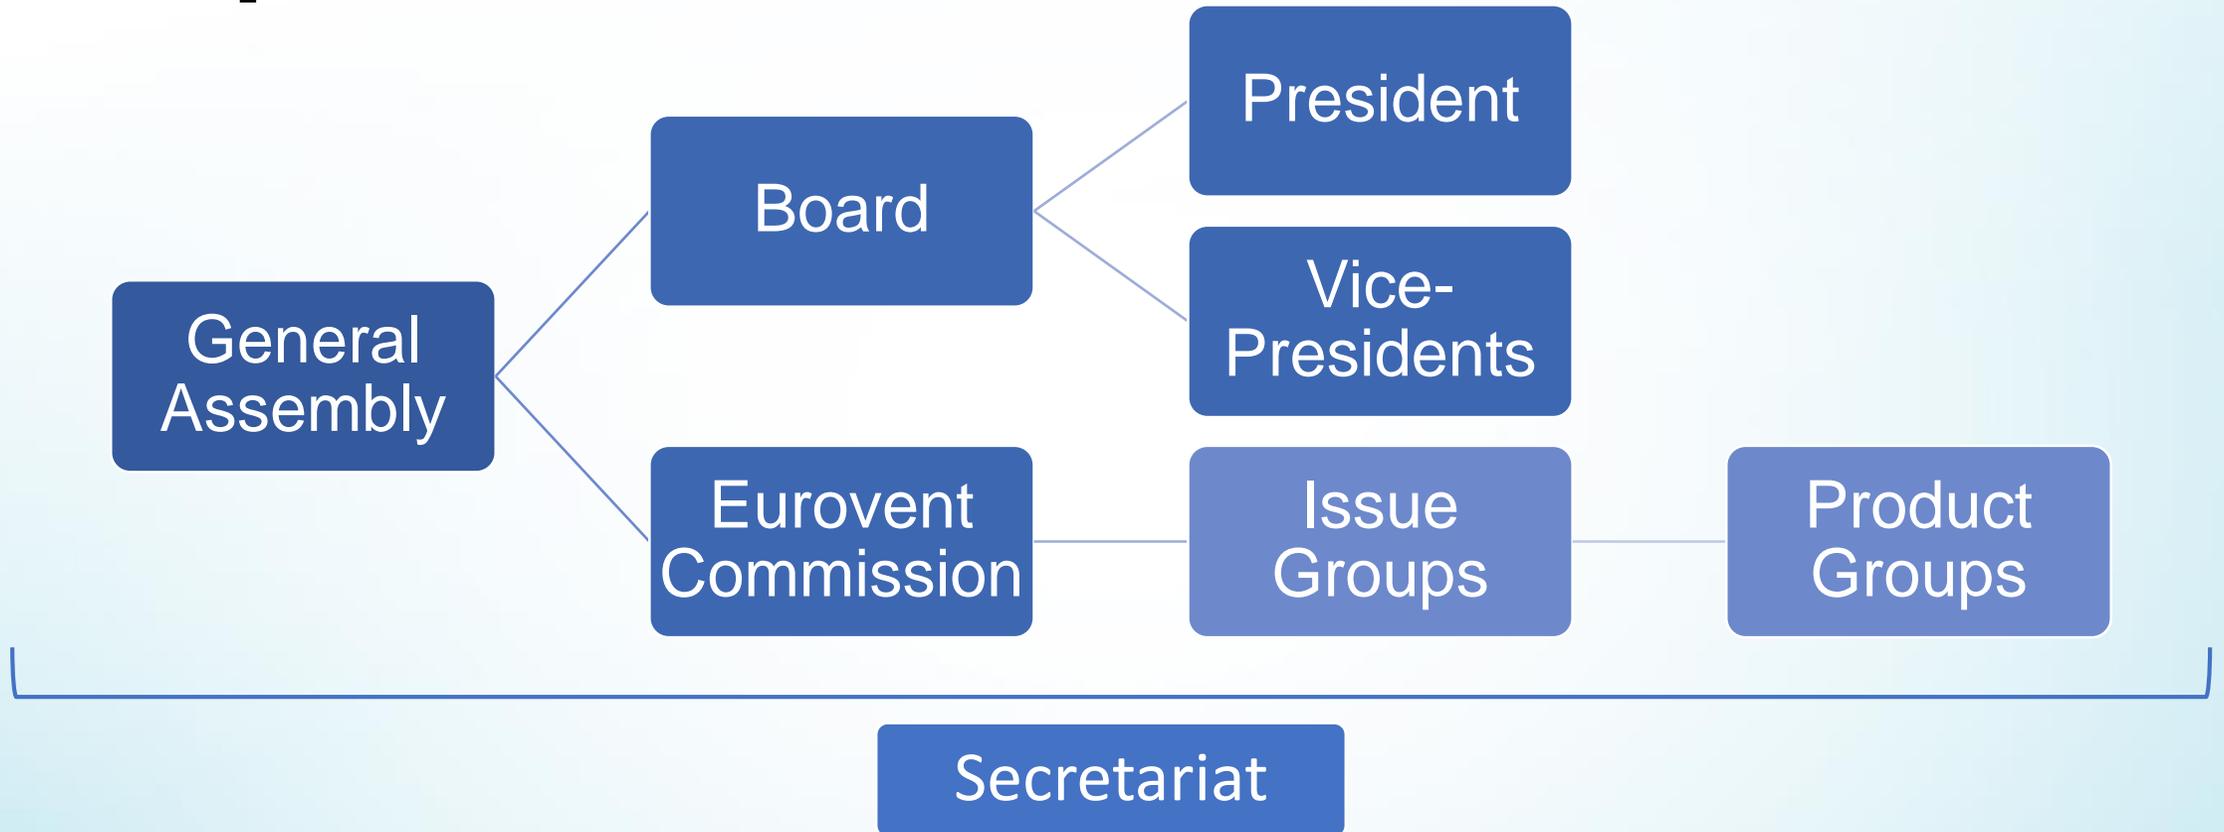

**EUROVENT** **EUROVENT MIDDLE EAST**

For more information, visit [www.IAQmatters.org](http://www.IAQmatters.org)

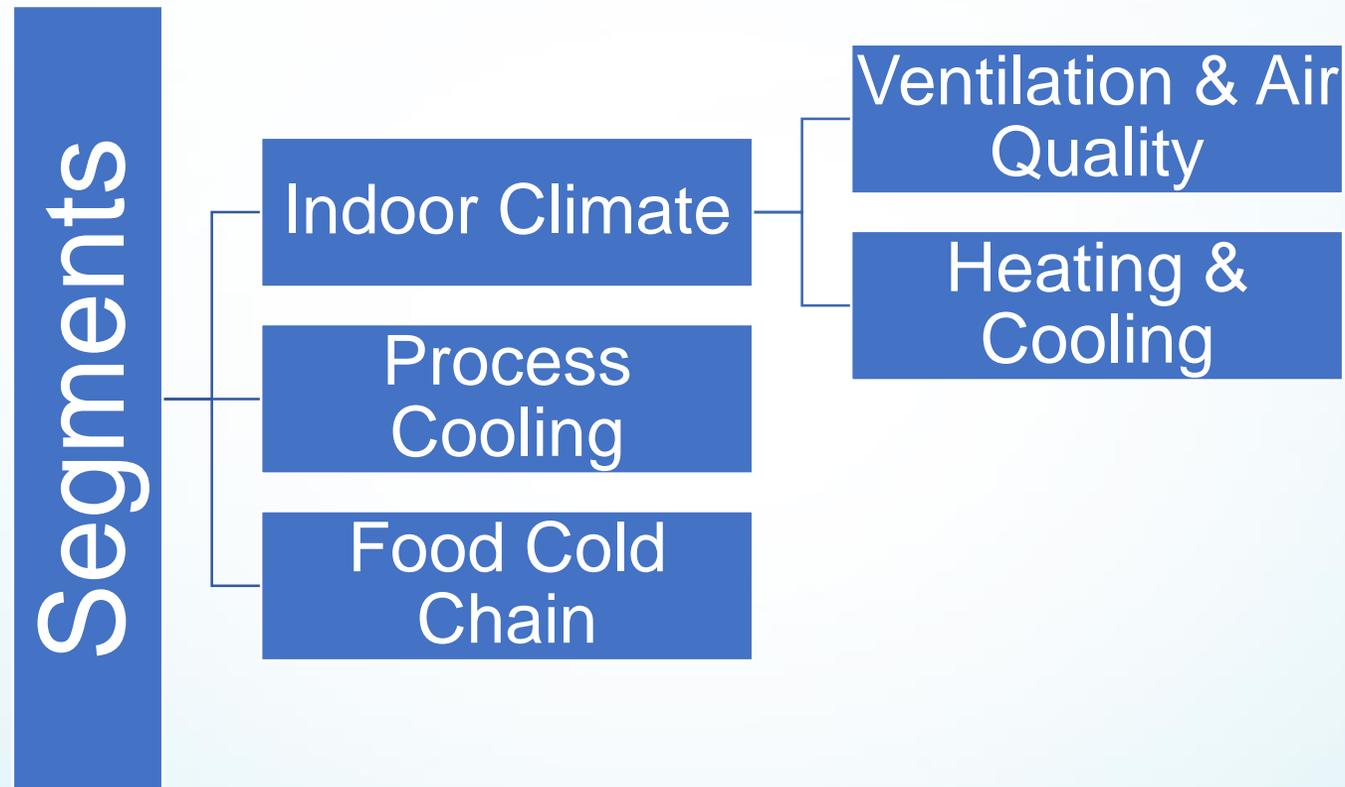

# Roadmap

1. Who are we?
2. **Eurovent Product Groups and activities**
3. How does Eurovent support the industry internationally?
4. Eurovent Recommendation on air curtain units and their application in cold rooms
5. Eurovent Certita Certification and Eurovent Market Intelligence
6. Eurovent Certita Certification program for Remote Display Cabinets
7. Q&A

# Corporate Structure

# Our Technologies Segments

# Our working groups

## Issue Groups

- Actively participate in the development of implementing measures of the EU Ecodesign Directive, or horizontal issues (e.g. refrigerants, indoor air quality)
- Provide political decision-makers with information necessary to draft legislations that match industrial realities
- Share their expertise across borders, contributing to a true level-playing field towards markets with less barriers

## Product Groups

- Actively participate in the development of European and international legislation, communicating and defending industry positions vis-à-vis political decision-makers and consultants
- Join forces to develop 'codes of good practice' for the industry, which later find their ways into standards and legislations
- Share their expertise across borders, contributing to a true level-playing field towards markets with less barriers

# Product Group structure

Indoor Climate Technologies (Ventilation and Air Quality, Heating and Cooling)			Process Cooling and Food Cold Chain
<b>PG-FANS</b> Product Group 'European Fan Technology'	<b>PG-AHU</b> Product Group 'Air Handling Units'	<b>PG-AC</b> Product Group 'Air Conditioners and VRF systems'	<b>PG-CT</b> Product Group 'Evaporative Cooling Equipment'
<b>PG-ERC</b> Product Group 'Energy Recovery Components'	<b>PG-RAHU</b> Product Group 'Residential Air Handling Units'	<b>PG-LCP</b> Product Group 'Liquid Chilling Packages'	<b>PG-DRY</b> Product Group 'Dry Coolers'
<b>PG-CUR</b> Product Group 'European Air Curtains'	<b>PG-FIL</b> Product Group 'Air Filters'	<b>PG-FCU</b> Product Group 'Fan Coil Units'	<b>PG-CPR</b> Product Group 'Compression Equipment'
<b>PG-SV</b> Product Group 'Smoke Ventilation'	<b>PG-AD</b> Product Group 'Air Diffusers'	<b>PG-HP</b> Product Group 'European Heat Pumps'	<b>PG-RDC</b> Product Group 'Commercial Refrigeration Equipment'

# Roadmap

1. Who are we?
2. Eurovent Product Groups and activities
3. **How does Eurovent support the industry internationally?**
4. Eurovent Recommendation on air curtain units and their application in cold rooms
5. Eurovent Certita Certification and Eurovent Market Intelligence
6. Eurovent Certita Certification program for Remote Display Cabinets
7. Q&A

# Founding member of ICARHMA

- Founding member of ICARHMA, a global network of HVAC&R associations from Australia, China, Europe, Japan, Korea, Latin and North America
- Close partnerships with sister associations across the globe
- Representative of Europe within ICARHMA

# Eurovent Summit

## The biennial key event for our industry

# Eurovent Delegations

- On a regular basis, we organise Eurovent Delegation visits together with our members and partners to important HVAC&R-related events across the globe in, for example, China, Indonesia, Russia, Turkey, or the UAE.
- These visits are usually accompanied by dedicated Eurovent seminars that present European solutions to HVAC&R topics

**EUROVENT**  
**MIDDLE EAST**

# In a nutshell

- Issue Group within Eurovent Association launched by 34 leading manufacturers and 4 related organisations
- Representative of Eurovent members based in and/or active in the Middle East region
- Discussion partner for authorities and standardisation organisations in the Middle East
- Working towards sustainability and efficiency
- Education on state-of-the-art appliances

# Eurovent MEmbers

# Roadmap

1. Who are we?
2. Eurovent Product Groups and activities
3. How does Eurovent support the industry internationally?
4. **Eurovent Recommendation on air curtain units and their application in cold rooms**
5. Eurovent Certita Certification and Eurovent Market Intelligence
6. Eurovent Certita Certification program for Remote Display Cabinets
7. Q&A

# What is an Industry Recommendation?

An Industry Recommendation is a **set of written regulations issued by an Industry/Experts association**

An Industry Recommendation is usually prepared in a joint effort by the major player of the industry and it can be understood **as a standardisation preparatory working document**

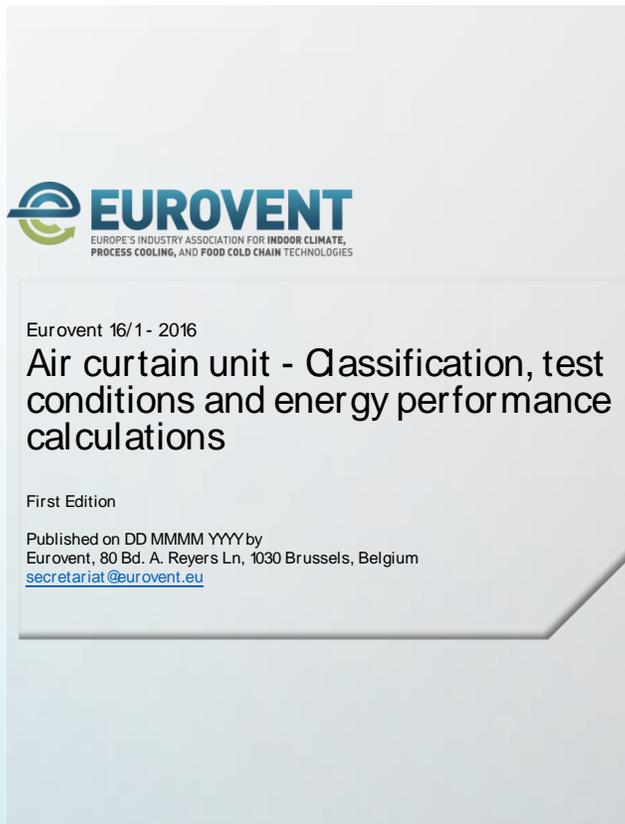

Eurovent 16/1 - 2016

**Air curtain unit - Classification, test conditions and energy performance calculations**

First Edition

# Eurovent Industry Recommendation on air curtains

## What are Air Curtains?

An air curtain is a **directionally-controlled airstream** which can reduce **the infiltration or transfer of air** from one side of the opening to the other and/or inhibit the passage of insects, dust and debris

# Eurovent Industry Recommendation on air curtains Cold storage applications

# Eurovent Industry Recommendation on air curtains Categories and standard rating conditions

## Heat loss and CSE due temperature difference

Heat loss through an open door subjected to temperature difference,  $Q_T$

$$Q_{T\ without} = \frac{V \cdot \rho \cdot c_p \cdot (\theta_{0w/o} - \theta_{1w/o})}{T} \quad [\text{kW}]$$

$$Q_{T\ with} = \frac{V \cdot \rho \cdot c_p \cdot (\theta_{0w} - \theta_{1w})}{T} \quad [\text{kW}]$$

Where:

- $V$  = Volume of the warm cell [m<sup>3</sup>]
- $\rho$  = Air density of the warm cell [kg/m<sup>3</sup>]
- $c_p$  = Specific heat of air [kJ/kg K]
- $T$  = Door opening time [s]
- $\theta$  = Average cell temperature [°C]

Climate Separation Efficiency due to temperature difference:

$$CSE_T = 1 - \frac{Q_{T\ with} + P_e}{Q_{T\ without}} \quad [\%]$$

Where:

- $P_e$  = Motor input power [kW]

# Walk-In cold room: Air curtains application

Cold storage temp:  $-23^{\circ}\text{C}$   
Heated area temp:  $+26^{\circ}\text{C}$   
Door dimensions: 2.4 x 2.1 m  
Door opened 100 times a day

# Walk-In cold room: Air curtains application (Cont.)

Huge energy losses  
Temperature rise in the cold sections  
Ice on the refrigeration units  
Ice on the floor

# Walk-In cold room: Air curtains application (Cont.)

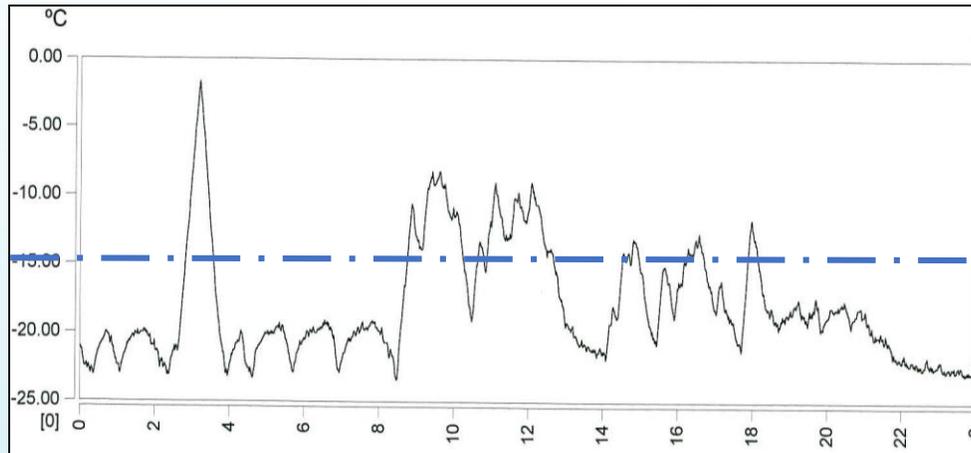

Lower cold losses  
Frost free result  
Easier to pass through the door  
without the plastic strips

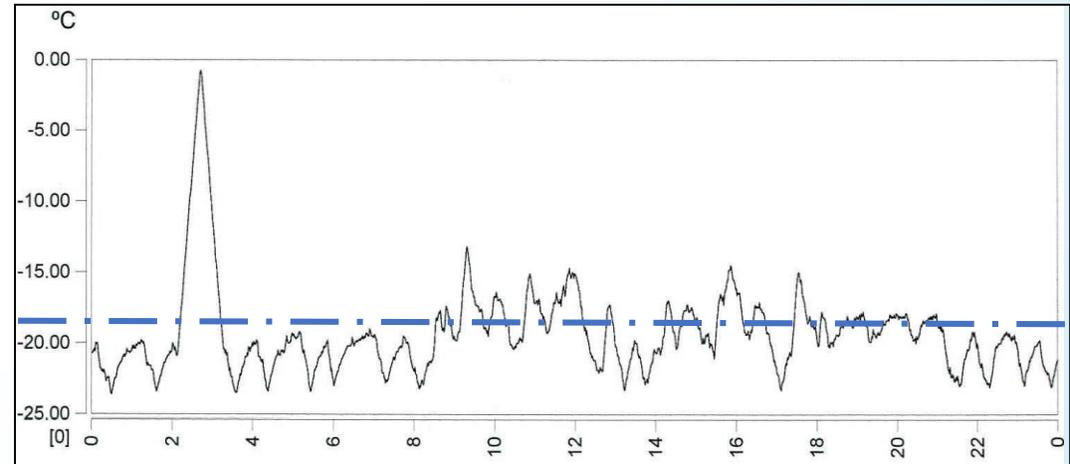

# Walk-In cold room: Air curtains application (Cont.)

## Without Air Curtain

Average cold room temperature:  $-15^{\circ}\text{C}$

## With Air Curtain

Average cold room temperature:  $-19^{\circ}\text{C}$

# Roadmap

1. Who are we?
2. Eurovent Product Groups and activities
3. How does Eurovent support the industry internationally?
4. Eurovent Recommendation on air curtain units and their application in cold rooms
5. **Eurovent Certita Certification and Eurovent Market Intelligence**
6. Eurovent Certita Certification program for Remote Display Cabinets
7. Q&A

# Our independent subunits in Paris

**Eurovent Certita Certification (ECC)**

ECC is a major European certification body in the field of HVAC&R, operating 38 performance certification programmes.

**Eurovent Market Intelligence (EMI)**

EMI is the European Statistics Office on the HVAC&R market, and has been providing key market data since 1994.

# Eurovent Certified Performance

ECC is known for its globally-recognised  
'Eurovent Certified Performance' mark:

# Eurovent Market Intelligence (EMI)

## EUROVENT *Market Intelligence*

EMI provides reliable and representative HVAC&R market intelligence data based on information supplied by market participants.

Its EMEA-wide data sets are frequently being used to support the development of legislation in the EU and beyond.

# Roadmap

1. Who are we?
2. Eurovent Product Groups and activities
3. How does Eurovent support the industry internationally?
4. Eurovent Recommendation on air curtain units and their application in cold rooms
5. Eurovent Certita Certification and Eurovent Market Intelligence
6. **Eurovent Certita Certification program for Remote Display Cabinets**
7. Q&A

# Third party certification: what does it mean?

## General Purpose:

- The value of 3rd party certification is to build up **customer** confidence by levelling the competitive playing field for all manufacturers and by increasing the integrity and accuracy of the industrial performance ratings
- Encourage honest competition
- **Ensure level playing field**
- Provide the guarantee **that equipment** not only complies with the standards but also **performs as claimed**

Level competitive playground

# Third party certification for commercial refrigeration equipment

Eurovent Certita Certification is a major European certification body providing **voluntary 3rd party certification** in the field of Heating, Ventilation, Air Conditioning and Refrigeration (HVAC-R)

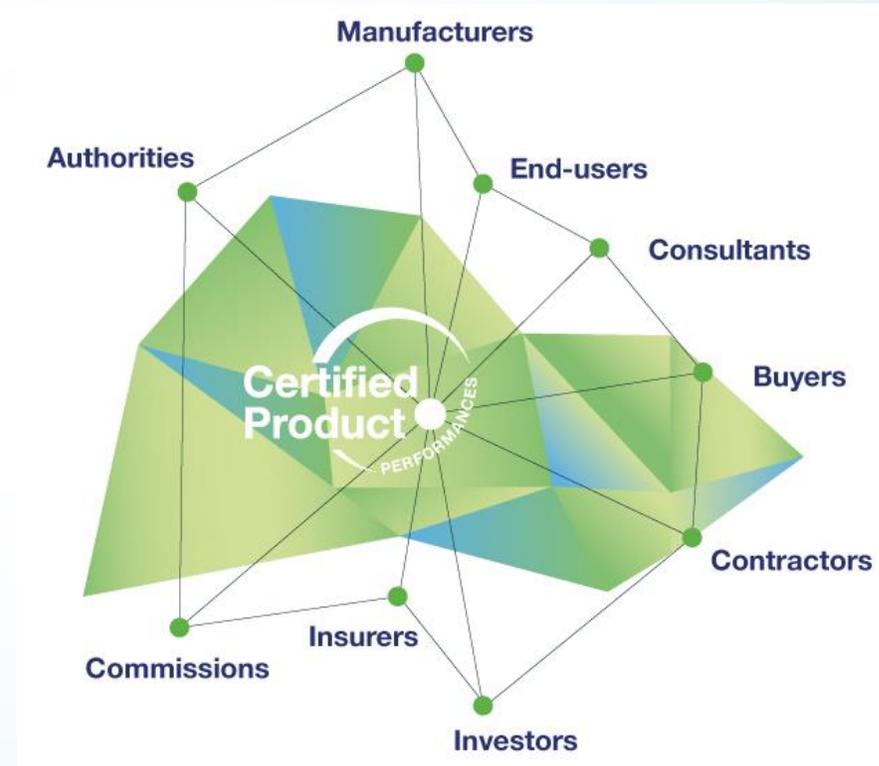

Eurovent Certita Certification certifies the performance ratings of products, **according to European and International standards**, on the full range of HVAC-R products

# Third party certification for commercial refrigeration equipment (cont.)

Eurovent Certita Certification as a certification body accredited by Cofrac – Accreditation 5-5017 –

Eurovent Certita Certification fulfills the requirements of the standards **EN ISO/CEI 17065:2012.**

# Third party certification for commercial refrigeration equipment (Cont.)

## 4) PERFORMANCE DECLARATION BY THE MANUFACTURER

- ✓ Self assessment of the products' compliance to the ISO & EN Standards
- ✓ Consumer trust relies on the manufacturers' reputation

# Third party certification for commercial refrigeration equipment (Cont.)

## 3) CERTIFICATION – 3<sup>RD</sup> PARTY

- ✓ Complies to test & Certification protocols approved by an independent body
- ✓ Consumers and authorities are part of validation

# Third party certification for commercial refrigeration equipment (Cont.)

## 2) ACCREDITED CERTIFICATION BODY

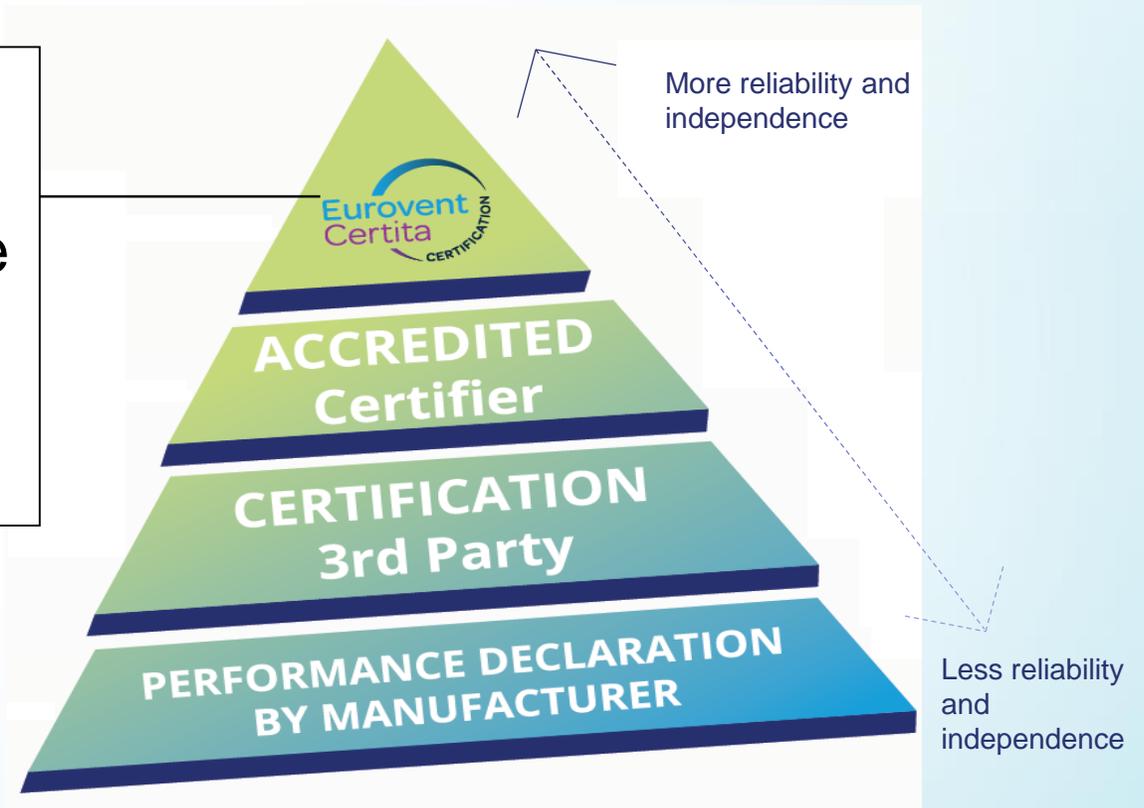

- ✓ Certification protocols are verified & accredited
- ✓ Certificate No 5-0517 scope available on [www.cofrac.fr](http://www.cofrac.fr)
- ✓ Consumer trust relies on independence

# Third party certification for commercial refrigeration equipment (Cont.)

## 1) CERTIFICATION – 3<sup>rd</sup> PARTY

- ✓ Over 600 manufacturers worldwide
- ✓ 38 Certification programmes
- ✓ 66% of HVAC-R products sold in Europe are ECP certified

# Third party certification for commercial refrigeration equipment (cont.)

The Eurovent  
Certified Performance  
energy efficiency label  
to make the right  
choice

Energy efficiency classes:

- From A+ (= highest energy efficiency)
- To E (= lowest energy efficiency)

# Third party certification for commercial refrigeration equipment (Cont.)

## **ECC RDC program**

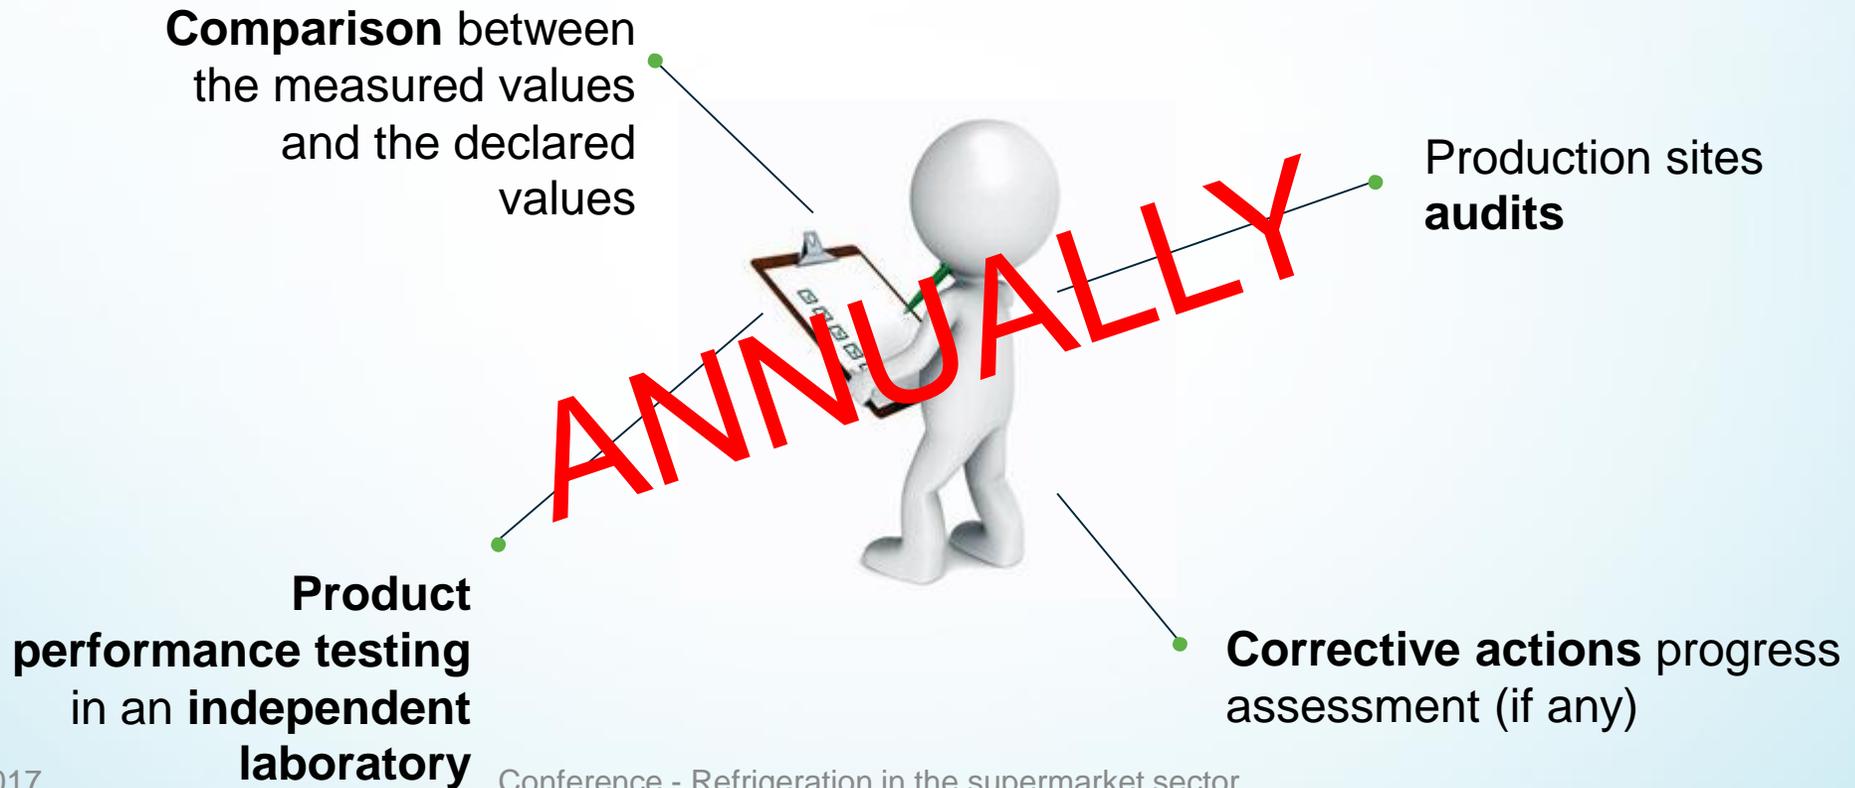

Testing of **2 cabinets** per  
year in accordance with  
**EN/ISO 23953:2015**  
Standard

# Third party certification for commercial refrigeration equipment (Cont.)

## **ECC RDC program**

A continuous verification process

## Access by programme

- If you want to apply for certification, please use [apply@eurovent-certification.com](mailto:apply@eurovent-certification.com)
- If you want to correct your own data, please write to the technician in charge of your list.

# PRODUCT PERFORMANCE REPORT

Document ID 1508252297  
Issued on October 17th, 2017

**PROJECT IDENTIFICATION** - This product performance report is delivered for:  
Name **Francesco Scuderi**  
Company **Eurovent Association**  
Project reference **Workshop UAE**  
Project location **United Arab Emirates**

**PRODUCT IDENTIFICATION**  
Certification Diploma N° **17.05.004**  
Brand **COSTAN**  
Range **Granvista Open**  
Product type **Refrigerated display cabinets / Remote display cabinet / Multideckers and semiverticals open**  
Product reference **GranVista Next Open Large 22 3M1**

**Important notice:**

- I. Data featured in this report are valid at the date of issue. The scope of this product performance report does not include all certified data that can be checked at <http://www.eurovent-certification.com>
- II. This product performance report is valid only for above product features and should not be referred to as a Diploma.
