

To whom it might concern:

The purpose of this letter is to recommend the Danish Technological Institute based on my own experience with the company. The Danish Technological Institute (DTI) insect team has evaluated and validated the design and business aspects of our *Hermetia illucens* (BSF) breeding facility. The evaluation and validation of the breeding facility included the physical layout and process flow, material flows and design calculations. Furthermore, the DTI insect team has provided us with highly valuable recommendations for achieving the development of the breeding facility and ensuring optimal reproduction of BSF.

I am extremely pleased with the quality of work they were able to provide and consequently, we have developed new collaborations with the DTI insect team. I can warmly recommend the DTI insect team without reservation to others in need of similar services.

A few examples of their high-quality services include:

- Customised breeding protocols, business model and innovative recommendations
- Innovative recommendations/consultancy for our breeding facility
- High level of commitment and prompt, effective communication
- Excellent project management and timely delivery

It has been a pleasure working with DTI insect team on this project and I am very happy to recommend them, and trust that your experience with them will be as positive as mine. If I can answer any additional questions about my experience as a customer of DTI, please feel free to contact me. My telephone number is +972528457179 and my email address is yuval@freeze-em.com.

Sincerely,

Yuval Gilad

CEO
